NOTICE OF FILING AND REQUEST FOR COMMENTS

D.T.E. 05-45

June 1, 2005

Petition of Cambridge Electric Light Company requesting approval of (1) a proposed increase to its transition charge, (2) a proposed reduction in its distribution rates in accordance with a settlement approved in D.T.E. 03-88, and (3) a proposed increase to its distribution rates related to the end of standard offer service.

On May 24, 2005, Cambridge Electric Light Company ("Cambridge") filed with the Department of Telecommunications and Energy ("Department") tariffs, effective July 1, 2005, designed to (1) increase its transition charge from an average rate of 0.288 cents per kilowatthour ("KWH") to an average rate of 1.332 cents per KWH (an increase of 1.044 cents per KWH or 362.5 percent) in order to avoid undercollecting transition costs by a projected \$22.2 million at the end of 2005; (2) reduce the distribution rates of all rate classes by an average rate of 0.017 cents per KWH in order to implement a settlement approved by the Department in Default Service Costs, D.T.E. 03-88 (2005); and (3) increase the distribution rates of rate classes R-2, R-4, R-5, R-6, and G-4 in order to eliminate the reductions that were implemented to meet the Restructuring Act's rate cap requirements, which expired on February 28, 2005. The proposed rate changes will increase the monthly bill for the average residential customer using 500 KWH of electricity by \$5.13 or 7.3 percent.
